

COVAC  
Dale-out

## WHY COVAC- Dole Out

The country has been caught unprepared in handling of the second wave. Mass vaccination seems like the only hope but the distribution strategies have largely failed us. Answering the distress calls emanating from the society, our team has come with the project COVAC DOLE OUT

Our project's (COVAC DOLE OUT) main idea is on efficient distribution of vaccines with the help of the government, private companies and citizens of the country.

For this, we are using the social vulnerability index. The index has four parameters.

1. social determinants of health
2. infection transmission
3. indicators of access
4. increased risk of adverse covid-19 outcomes

# PROGRESS STEPS

## VOLUNTEERS

- Volunteers will be collecting the data of the four parameters
- After the collection , the data will be shared through the covac doleout app.
- The volunteers will be certified for the data they shared.

## DATA TO MEDICAL INDUSTRIES

- The data shared by the volunteers will be sent to the medical industries which supply the vaccines.
- Based on this data, the places to conduct vaccination drives and no.of vaccines needed is decided

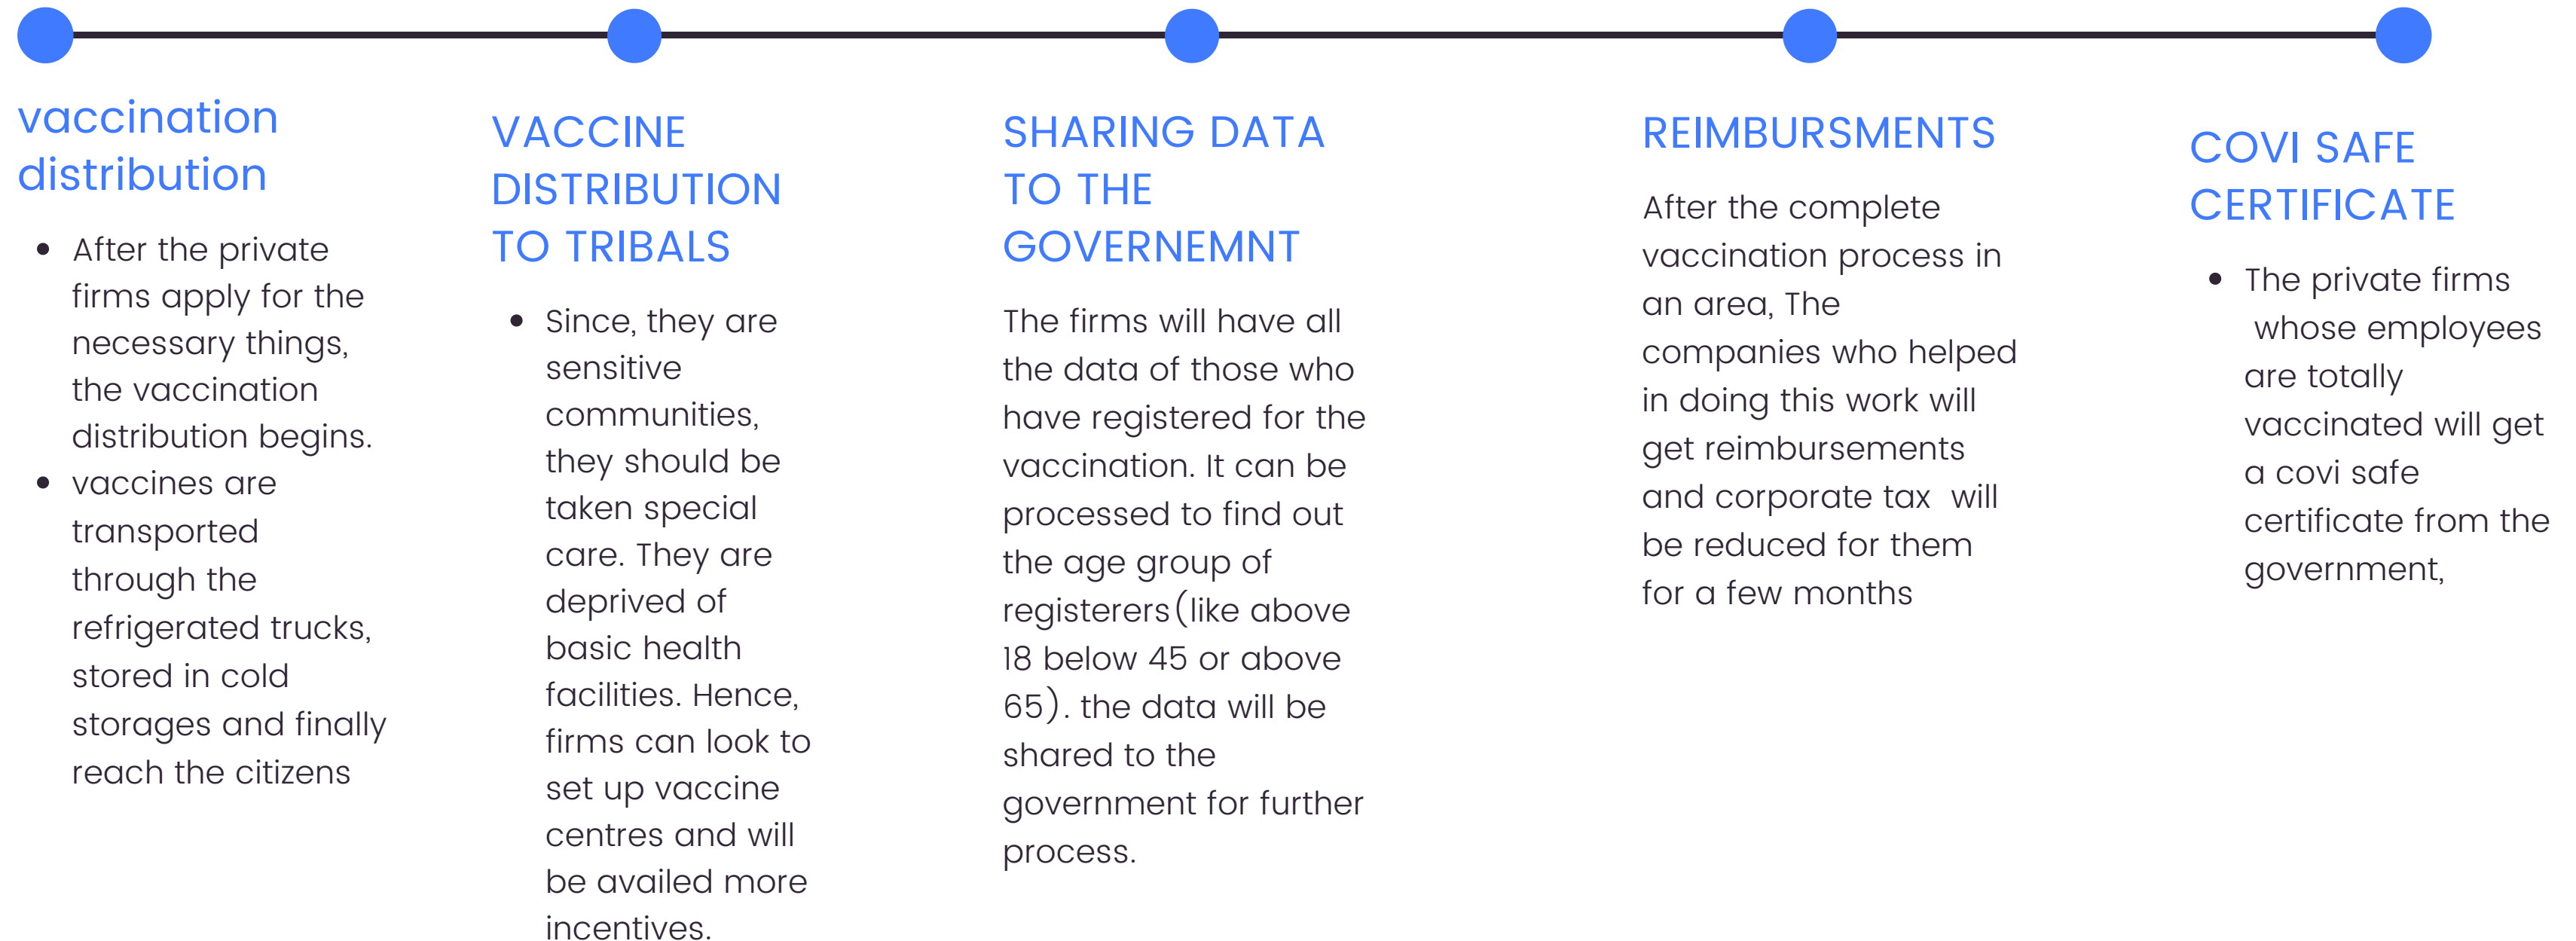

## PRIVATE FIRMS COLLABORATION

- There are many essentials needed before the vaccines reach the citizens.
- cold storage, transport etc.
- For this we request private firms to come forward and do the helpful.
- The private companies collaborate with one another to complete the work

## PRIVATE FIRM'S APPLICATION

- After the collaboration, The companies apply for setting up cold storages, transporting the vaccines from manufacturing units to the camps
- The firms can even apply for setting up portable vaccination centres, which are useful in hilly and other rural areas.

# PROGRESS STEPS

# COVI SAFE ZONE

SHRUSHTI TRANSPORT SERVICES

This is to certify that

# SHRUSHTI SERVICES

have succesfully vaccinated all of its employees

**Arita Um**

President

**Nica Holvers**

PRIME MINISTER

# CERTIFICATE OF VOLUNTEERSHIP

This certifies that

**SANDRA ADAMS**

is a member in good standing  
for sharing the data to Covac Doleout
